Subject: More from Greenaction - FW: questions about shipyard environmental studies

Dear Michele,

More questions just came in. I don't know if they will be part of the protest exchange. I just talked to Jackie about these. We don't think that we need to add any more talking points or Q&A for Jared.

#1. Of course we will facilitate setting up a meeting. Jared doesn't need us to tell him to say that. I told Bradley in Dec we would be happy to meet.

#2. We already have a Q&A for that

#3. Jackie reminded me that Jared used to be the head of the City's Dept of Envi, so he already knows this is not a Federal matter; it relates to compliance with the California Envi Quality Act. The more appropriate contact to follow up is the City (possibly the Planning Dept). I left a message w/City asking to give us an appropriate contact person. If I get it soon enough, I'll forward it to you. City representatives had told us verbally that they already addressed sea level rise in the 2010 Environmental Impact Statement. But that is a question the City should answer, not us.

Dear Bradley: Lily is in a three day training off site. She will get back to you as soon as she can. FYI, Jackie

Subject: questions about shipyard environmental studies

Hi Lily and Jackie,
Thanks for being so responsive to our questions...very much appreciated.

A few questions we need to focus on:

1. we still request a conference call and/or in person meeting with EPA, Navy and DTSC technical staff on the cleanup issues at the shipyard.

2. It is our recollection that there has never been a comprehensive cumulative impact analysis that looked at potential exposures at the shipyard combined with all the other pollution exposures in the community? Is that correct? And we assume whatever studies were done never looked at all the social vulnerabilities such as are looked at in CalEnviroscreen.

3. Can you remind me if sea level rise and storm surges were considered in any environmental impact report. If that was done, can you send me to where that can be found. thanks.

Bradley
